## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-15, drawn to arts and crafts material and the method of making the same classified in class 428, subclass 42.1.  
1772
  - II. Claim 16-20, drawn to a fishing fly for fly fishing, classified in class 43, subclass 42.37.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it does not include the "foil for enhancing the visual characteristics of said arts and crafts material" (claim 1, lines 3 and 4). The subcombination has separate utility such as it could be used to make a variety of ornamental house decorations.
